Dear Dr. Ma,

On behalf of the organizing committee, I am pleased to invite you to attend the mini-symposium and short training course on *New Advances in Land Carbon Cycle Modeling*, which will be held on May 19-June 2, 2018 in Northern Arizona University, Flagstaff, AZ, US.

The objectives of the mini-symposium and short training course are to discuss the new theory on land carbon storage dynamics and to train the participants on the following aspects of land carbon modeling: 1) Matrix representations of land carbon, nitrogen, and phosphorus cycles; 2) A unified diagnostic system for full understanding of uncertainty sources; 3) Carbon cycle data assimilation system for both flux- and pool-based data; and 4) Semi-analytic spin-up for computational efficiency. And after the mini-symposium and short training course, we will discuss some potential collaborations in land carbon modeling with you.

You will need to pay your own traveling costs and a registration fee of \$750.

We hope you will attend it and thank you for your interest.

Please do not hesitate to contact me if you have any questions.

Sincerely yours,

Yiqi Luo, Ph.D.
